

URSOiLL

Innovative solutions for sustainable urban soil restoration through Living Labs

The project aims to:

- Improve soil health through innovative solutions and co-creation with stakeholders
- Boost participation and collaboration among local actors
- Connect research with practice, linking soil scientists and practitioners
- Enable replication of solutions across Europe

Five Living Labs in Sweden, Spain, Italy, Greece and Luxembourg will co-create and test nature-based, technological, and socio-economic solutions.

URSOiLL pioneers best practices in urban soil restoration, advancing EU Green Deal goals and the vision of **100 Soil Living Labs & Lighthouses by 2030**.
